Introducing

PC/LAPTOP PREVENTATIVE HEALTH CHECK

- ✓ We'll install any critical updates to your Windows operating system.
- ✓ We'll install Webroot antivirus software onto your computer.
- ✓ We'll remove any potential spyware, viruses, and temporary files that may be slowing down your system, thereby, freeing more storage space.
- ✓ Plus, we will remove dust from your computer's fan(s) and internal components to help prevent any overheating issues.

**ALL FOR
ONLY \$89**

Why not bring in your computer into Plexus Computing to make sure it's running at its optimal performance today?
